

Dear Cheshire Academy Parents and Guardians,

Congratulations on your student's enrollment, and welcome to the Cheshire Academy community! We're excited to share that, in preparation for the school year, we are upgrading to a **new electronic health record system** to better serve our students and families.

This new platform—August Schools—offers:

- **Streamlined communication with our health team**
- **Simplified medical form submission**
- **Integrated support** across health services, counseling, and athletics
- **Enhanced privacy protections** for your child's health information

You'll soon receive your [MyCheshire portal](#) login credentials. From there, you can access August Schools by clicking the icon on the Health Services Resource Board.

Required health forms are available on the Resource Board and in August Schools. These include:

- **Comprehensive Medical History Questionnaire**
- **Annual Physical Exam** (valid for 13 months)
- **Connecticut-required Immunizations**
- **Tuberculosis Risk Assessment** (completed within the portal; further steps only if indicated)
- **Proof of Medical Insurance** (must be valid in Connecticut)
 - *International students are automatically enrolled in the school's health insurance.*

Please note that students with incomplete medical records will not be permitted on campus for the first day of school. More detailed instructions will be shared in the coming weeks, and our Health Services team is available throughout the summer to support you.

We look forward to welcoming you and your student to Cheshire Academy and thank you for partnering with us in promoting student wellness.

Warmly,

The Health Services Team
